# About.

# Our Group

Dive into the origins
&
vision of our dynamic group.

Mentorly

# How did we start?

## Our Group Companies

Djital Services

2014

In a world of digital echoes, we sought to be the original voice. Djital Services is all about pixels and codes. It's where creativity meets technology

Placementor

2019

In the maze of career paths, we envisioned a guiding star. Connecting students/job aspirants to industry experts for standout placement training and support

Mentorly

2022

In an AI-driven world, we felt the urge to offer more than traditional teaching. Mentorly's mission is to transform learners into AI pioneers, ensuring they're not just future-ready, but future-leading.

# Mentorly: Where AI Meets Ambition

**The world was on the cusp of an AI revolution**

In this AI era, we saw many talking about it but few truly learning it. Thus, in 2022, Mentorly was conceptualized with a goal to prepare a generation to lead the future, not just follow it.

01

AI-driven practical education.

02

150+ trained corporate professionals.

03

10+ AI-based real-time applications.

04

Shaping tomorrow's AI visionaries.

## Mentorly Journey so far

Mentorly
